Professional Summary

Master's in Business Analytics student with a strong foundation in Physics, transitioning into the data and analytics field. Skilled in Python, SQL, Power BI, and machine learning with hands-on project experience and industry certifications. Eager to apply data-driven solutions in practical settings and grow within a results-oriented team.

SKILLS

Languages: MySQL, Python

Data Visualization Tool: Power BI

Techniques: Prompt Engineering, Machine Learning, Data Analysis

Soft Skills: Analytical Mindset, Problem Solving, Team Collaboration, Initiative & Ownership

EXPERIENCE

RCMEXPERTZ– Account Receivable Analyst

Mar 2024 – Present

Analyzed large volumes of financial healthcare data using Excel to uncover denial and reimbursement trends, resolve unpaid claims, and build dashboards for monitoring collection ratios and aging metrics.

PMTAC – Billing Executive

Nov 2022 – Dec 2023

Utilized Excel to develop and generate multiple reports for financial healthcare data analysis. Achieved a significant milestone of a 30% increase in revenue through data analysis.

PROJECTS

Customer Churn Prediction using Random Forest

This machine learning project contains a Python implementation for predicting customer churn using the Random Forest classification algorithm. The goal was to predict whether a customer would churn or not based on the data available.

Achieving Highest Accuracy with Different ML Algorithms

Developed and evaluated multiple machine learning algorithms to achieve optimal classification accuracy on structured data using Python.

Sales Performance Dashboard

By using Power BI and Excel, developed a comprehensive Sales Performance Report to provide valuable insights into the performance of a company's sales operations.

MySQL Pet Care Analysis

A real-world database project demonstrating SQL skills through pet healthcare data management and analysis.

EDUCATION

MS Business Analytics (2024 – 2026)
Fast Nuces Islamabad

BS Physics
University of Poonch AJK (2016 – 2020)

CERTIFICATIONS

Data Science Bootcamp from Atomcamp
Google Data Analytics Certificate from Coursera
SQL for Data Science from Coursera
